ADVERTISEMENT.

THE Editors of the Transactions of the Geological Society are directed to make it known to the Public, that the Authors alone are responsible for the facts and opinions, contained in their respective papers.

It is requested that all letters and communications to the Secretaries, and presents to the Society, may be addressed to the Apartments of the Geological Society, Somerset House, London.

The Council having considered the adoption of a fuller page advisable, the breadth of the letter-press is so increased with the commencement of this volume, that the page contains about one-sixth more matter than heretofore, but without any additional cost. The Council have also determined, that a List of Donations, on an improved plan, shall in future accompany each Part, whereby the bulk of the concluding Part of a volume will be diminished, and the expense more equally divided to the purchasers of the Transactions.
