

CONTENTS.

PART I.

- I. *On the Geological Relations of the South of Ireland.* By Thomas Weaver, Esq., F.R.S., F.G.S., M.R.I.A. p. 1
- II. *On the Geological Structure of the North-eastern Part of the County of Antrim.* By James Bryce, Jun., M.A., F.G.S. (Member of the Geological Society of Dublin, and of the Natural History Society of Belfast.) p. 69
- III. *On the Squaloraia.* By H. Riley, M.D. (Communicated by Charles Stokes, Esq., F.G.S.) p. 83
- IV. *Notes on the Geology of the North Coast of the St. Lawrence.* By Capt. Bayfield, R.N., F.R.A.S. (Communicated by George Bellas Greenough, Esq., P.G.S.) p. 89
- V. *On the Geology of the Bermudas.* By Richard J. Nelson, Esq., Lieut. R.E. (Communicated by George Bellas Greenough, Esq., P.G.S.) p. 103
- VI. *Notes on the Geology of the Brown Clee Hill, in the County of Salop.* By Romley Wright, Esq., Employed on the Ordnance Trigonometrical Survey of England. p. 125
- VII. *Observations on the Geological Structure of the Neighbourhood of Reading.* By J. Rofe, Jun., Esq. (Communicated by Robert Hunter, Esq., F.G.S.) p. 127
- VIII. *Observations on a Well dug on the South side of Hampstead Heath.* By Nathaniel Thomas Wetherell, Esq., F.G.S. p. 131
- IX. *Observations on the Strata penetrated in sinking a Well at Diss, in Norfolk.* By John Taylor, Esq., Treas. G.S. p. 137
- X. *On the Structure of the Neighbourhood of Gamrie, Banffshire, particularly on the Deposit containing Ichthyolites.* By Joseph Prestwich, Jun., Esq., F.G.S. p. 139
- XI. *Notices on the Geology of the North Coast of the Counties of Mayo and Sligo in Ireland.* By Archdeacon Verschoyle, M.A. (Communicated by Roderick Impey Murchison, Esq., P.G.S.) . . . p. 149
- XII. *Description of some Fossil Crustacea and Radiata, found at Lyme Regis, in Dorsetshire.* By William John Broderip, Esq., F.G.S., F.R.S. &c. V.P.Z.S. p. 171

CONTENTS.

- XIII. *On the Bones of Birds discovered in the Strata of Tilgate Forest, in Sussex.* By Gideon Mantell, Esq., LL.D., F.R.S. p. 175
- XIV. *On the Syenite Veins which traverse Mica Slate and Chalk at Goodland Cliff and Torr Eskert, to the south of Fair Head, in the County of Antrim.* By Richard Griffith, Esq., F.G.S., M.R.I.A., P.G.S. of Dublin p. 179
- XV. *On certain Peculiarities in the Cervical Vertebrae of the Ichthyosaurus, hitherto unnoticed.* By Sir Philip Grey Egerton, Bart., M.P., V.P.G.S. p. 187
- XVI. *Notes to accompany a Geological Map of the Forest of Dean Coalfield.* By Henry Maclauchlan, Esq., F.G.S., Employed on the Ordnance Trigonometrical Survey p. 195
- XVII. *Notice respecting a Piece of recent Wood, partly petrified by Carbonate of Lime, with some Remarks on Fossil Woods.* By Charles Stokes, Esq., F.G.S. p. 207
- XVIII. *Remarks on a Section of the Upper Lias and Marlstone of Yorkshire, showing the limited Vertical Range of the Species of Ammonites and other Testacea; with their Value as Geological Tests.* By Louis Hunton, Esq. (Communicated by J. F. Royle, Esq., F.G.S.) p. 215
- XIX. *On the Distribution of Fossil Remains on the Yorkshire Coast, from the Lower Lias to the Bath Oolite inclusive.* By W. C. Williamson, Esq., Curator of the Manchester Society of Natural History p. 223
- XX. *On the Cretaceous and Tertiary Strata of the Danish Islands of Seeland and Moën.* By Charles Lyell, Esq., P.G.S., F.R.S., &c. p. 243
- XXI. *Notices and Extracts from the Minute-Book of the Geological Society* p. 259
1. *Observations on the Cliffs in the Neighbourhood of Harwich, made in December, 1832.* By James Mitchell, LL.D., F.G.S. [Read May 15, 1833.] p. 259
 2. *Notices of the Red Marl and Lias of Worcestershire; of a Fault by which they are affected; and of Fossil Freshwater Shells at Shotover Hill.* By Hugh Edwin Strickland, Esq., F.G.S. [Read December 4, 1833.] p. 260
 3. *Notice of the Analysis of a Mineral Water from the Island of St. Paul, in lat. 38° 45' S., and long. 77° 53' E.* By John Bostock, M.D., F.G.S. [Read January 7, 1835.] p. 261
 4. *Notice of Fossils found in the Bognor Rocks.* By Woodbine Parish, Jun., Esq., Sec. G.S. [Read January 7, 1835.] p. 262
 5. *Extract from a Letter addressed by Dr. Daubeny to the Curator, on a Saline Spring near Oxford.* [Read June 10, 1835.] p. 263
 6. *Notice of a Letter on the Earthquake in Chili, November 19th, 1822, addressed to Capt. Belcher, R.N., F.G.S.* By H. Cuming, Esq., dated March 5th, 1835. [Read Dec. 2, 1835.] p. 263

CONTENTS.

PART II.

- XXII. *On the Structure of the Sevâlik Hills, and the Organic Remains found in them.* By Proby T. Cautley, Esq., Capt. Bengal Artillery, F.G.S. p. 267
- XXIII. *Description of a Raised Beach in Barnstaple or Bideford Bay, on the North-west Coast of Devonshire.* By the Rev. Prof. Sedgwick, V.P.R.S., F.G.S., &c., and Roderick Impey Murchison, Esq., F.R.S., F.G.S., &c. p. 279
- XXIV. *Extract from a Letter, by the Rev. David Williams, F.G.S., on the Raised Beaches in Barnstaple or Bideford Bay.* p. 287
- XXV. *Memoir to illustrate a Geological Map of Cutch.* By C. W. Grant, Esq., F.G.S., Capt. Bombay Engineers. p. 289
- XXVI. *On the Upper Formations of the New Red Sandstone System in Gloucestershire, Worcestershire, and Warwickshire; showing that the Red or Saliferous Marls, including a peculiar Zone of Sandstone, represent the "Keuper" or "Marnes Irisées;" with some account of the underlying Sandstone of Ombersley, Bromsgrove, and Warwick, proving that it is the "Bunter Sandstein" or "Grès Bigarré" of Foreign Geologists.* By Roderick Impey Murchison, Esq., V.P.G.S., F.R.S., and Hugh Edwin Strickland, Esq., F.G.S. p. 331
- XXVII. *A Description of various Fossil Remains of three distinct Saurian Animals, recently discovered in the Magnesian Conglomerate near Bristol.* By Henry Riley, M.D., and Mr. Samuel Stutchbury, A.L.S. Communicated by Charles Lyell, Esq., Pres. G.S. p. 349
- XXVIII. *Extracts from a Memoir on the Geological Structure and Phænomena of the County of Suffolk, and its Physical Relations with Norfolk and Essex.* By the Rev. William Branwhite Clarke, M.A., F.G.S. p. 359
- XXIX. *On the Geology of the Thracian Bosphorus.* By Hugh Edwin Strickland, Esq., F.G.S. p. 385
- XXX. *On the Geology of the Neighbourhood of Smyrna.* By Hugh Edwin Strickland, Esq., F.G.S. p. 393
- XXXI. *On the Geology of the Island of Zante.* By Hugh Edwin Strickland, Esq., F.G.S. p. 403
- XXXII. *Letter from Mr. James de Carle Sowerby to the Secretary, on the Genus Crioceratites and on Scaphites Gigas.* p. 409

CONTENTS.

PART III.

- XXXIII. *On the Geology of Coalbrook Dale.* By Joseph Prestwich, Jun., Esq., F.G.S. p. 413
- XXXIII.* *Notice of a Letter from Robert Were Fox, Esq., to Sir Charles Lemon, Bart., F.G.S., relative to the Origin of Mineral Veins* p. 497
- XXXIV. *Notice on the Remains of a Fossil Monkey from the Tertiary Strata of the Sewalik Hills in the North of Hindoostan.* By Capt. P. T. Cautley, F.G.S., Bengal Artillery; and H. Falconer, M.D., Bengal Medical Service. p. 499
- XXXV. *On the Formation of Mould.* By Charles Darwin, Esq., F.R.S., Sec. G.S. p. 505
- XXXVI. *Note on the Dislocation of the Tail at a certain point observable in the Skeleton of many Ichthyosauri.* By Richard Owen, Esq., F.R.S., F.G.S., Hunterian Professor to the Royal College of Surgeons, London. p. 511
- XXXVII. *A Description of a Specimen of the Plesiosaurus Macrocephalus, (Conybeare), in the Collection of Viscount Cole, M.P., D.C.L., F.G.S., &c.* By Richard Owen, Esq., F.R.S., F.G.S., Hunterian Professor to the Royal College of Surgeons, London . p. 515
- XXXVIII. *On the Fossils of the Eastern portion of the Great Basaltic District of India.* By John G. Malcolmson, Esq., F.G.S. . p. 537
- XXXIX. *Geological Notes on part of Mazunderān.* By C. M. Bell, M.D. p. 577
- XL. *On the Geology of part of Asia Minor, between the Salt Lake of Kodj-hissar and Cæsarea of Cappadocia; including a brief Description of Mount Argæus.* By W. J. Hamilton, Esq., Sec. G.S. p. 583
- XLI. *On some remarkable Dikes of Calcareous Grit, at Ethie in Ross-shire.* By H. E. Strickland, Esq., F.G.S. p. 599
- XLII. *On the Connexion of certain Volcanic Phænomena in South America; and on the Formation of Mountain Chains and Volcanos, as the Effect of the same Power by which Continents are elevated.* By Charles Darwin, Esq., F.R.S., Sec. G.S. p. 601
- XLIII. *On the Physical Structure of Devonshire, and on the Subdivisions and Geological Relations of its older stratified Deposits, &c.* By the Rev. Adam Sedgwick, M.A., F.R.S., F.G.S., Woodwardian Professor of Geology in the University of Cambridge; and Roderick Impey Murchison, Esq., F.R.S., V.P.G.S. . . . p. 633

CONTENTS.

XLIV. <i>On some Species of Orthocerata.</i> By C. Stokes, Esq., F.R.S., F.G.S.	p. 705
XLV. <i>A Notice respecting some Fossils collected in Cutch, by Capt. Walter Smee, of the Bombay Army. By Lieut. Colonel W. H. Sykes, F.R.S., F.G.S.</i>	p. 715
XLVI. <i>Notes on the Age of the Limestones of South Devonshire.</i> By William Lonsdale, F.G.S.	p. 721
<i>Index</i>	p. 723
<i>A List of Donations to the Library, to the Collection of Maps, Plans, Sections and Models; and to the Museums.</i> . . .	p. 755
<i>Explanation of the Plates.</i>	

The Binder is directed to place the three Tables of Officers and Council immediately
after the Title Page, and in the order in which they were published.
