

## CONTENTS.

## PART II.

- XXIV. *On the Distribution and Classification of the Older or Palæozoic Deposits of the North of Germany and Belgium, and their comparison with Formations of the same age in the British Isles.* By the Rev. Adam Sedgwick, M.A., F.R.S., F.G.S., Woodwardian Professor in the University of Cambridge, &c., and Roderick Impey Murchison, Esq., F.R.S., F.G.S., Hon. M.R.I.A., &c. . . . . p. 221
- XXV. *On the Fossils of the Older Deposits in the Rhenish Provinces; preceded by a general Survey of the Fauna of the Palæozoic Rocks, and followed by a Tabular List of the Organic Remains of the Devonian System in Europe.* By Viscount d'Archiac and M. Edouard de Verneuil, Members of the Geological Society of France . . . . . p. 303
- XXVI. *Description of the Remains of a Bird, Tortoise and Lizard from the Chalk.* By Richard Owen, Esq., F.R.S., F.G.S. Instit. Reg. Sc. Paris Corresp. p. 411
- XXVII. *On the Distribution of the Erratic Boulders and on the Contemporaneous Unstratified Deposits of South America.* By Charles Darwin, Esq., M.A., F.R.S., F.G.S. . . . . p. 415
- XXVIII. *On the Geology of the South-east of Devonshire.* By Robert Alfred Cloyne Austen, Esq., F.G.S. . . . . p. 433
- XXIX. *On the Characters of the Beds of Clay immediately below the Coal-seams of South Wales, and on the occurrence of Boulders of Coal in the Pennant Grit of that district.* By William E. Logan, Esq., F.G.S. . . . . p. 491
- XXX. *Sketch of the Geology of Aden, on the coast of Arabia.* By Frederick Burr, Esq. Communicated by John Taylor, Esq., Treas. G.S. . . . . p. 499
- XXXI. *On the Teeth of species of the genus Labyrinthodon (Mastodonsaurus of Jaeger), common to the German Keuper formation and the Lower Sandstone of Warwick and Leamington.* By Richard Owen, Esq., F.R.S., F.G.S., Instit. Reg. Sc. Paris Corresp. . . . . p. 503
- XXXII. *Description of parts of the Skeleton and Teeth of five species of the genus Labyrinthodon (Lab. leptognathus, Lab. pachygnathus, and Lab. ventricosus, from the Coton-end and Cubbington Quarries of the Lower Warwick Sandstone; Lab. Jægeri, from Guy's Cliff, Warwick, and Lab. scutulatus, from Leamington); with remarks on the probable identity of the Cheirotherium with this genus of extinct Batrachians.* By Richard Owen, Esq., F.R.S., F.G.S., Instit. Reg. Sc. Paris Corresp. . . . . p. 515

- XXXIII. *Memoir descriptive of a series of Coloured Sections of the Cuttings on the Birmingham and Gloucester Railway.* By Hugh Edwin Strickland, Esq., M.A., F.G.S. . . . . p. 545
- XXXIV. *Notes to accompany some Fossils collected by the Author, and Mr. H. Still, during their employment on the Ordnance Survey in Pembrokeshire.* By Henry Maclauchlan, Esq., F.G.S. . . . . p. 557
- XXXV. *Notice of the Discovery of a mass of Trap Rock in the Mountain Limestone of Bleadon Hill, in the County of Somerset.* By the Rev. David Williams, F.G.S. . . . . p. 561
- XXXVI. *Notices from the Minute Books of the Geological Society:—*
1. *On the Geological Structure and Phænomena of the northern part of the Cotentin, and particularly in the immediate vicinity of Cherbourg.* By the Rev. W. B. Clarke, M.A., F.G.S. (Read Feb. 1, 1837.) . p. 563
  2. *Extract from a letter containing an account of the occurrence of Gravel in fissures penetrating Granitic Rocks vertically and horizontally in the Island of Guernsey.* By Walter Calverly Trevelyan, Esq., F.G.S. (Read Nov. 15, 1837.) . . . . . p. 567
  3. *On the illustration of Geological Phænomena by means of Models.* By T. Sopwith, Esq., F.G.S. [The Notice which accompanied the Models was read Jan. 6, 1841.] . . . . . p. 568
- Index* . . . . . p. 573
- A List of Donations to the Library, to the Collection of Maps, Plans, Sections and Models; and to the Museums.*
- Explanation of the Plates.*

The Binder is directed to place the two Tables of Officers and Council immediately after the Title-page, and in the order in which they were published.
